## PROFESSIONAL SUMMARY

Customer-centric Senior Product Manager with extensive experience directing cross-functional engineering, design, and analytics teams across multi-platform digital products (iOS, Android, Web). Combines a strong technical mindset with creative direction to scale payment infrastructure, automate risk and fraud mitigation, and lead iterative UX optimizations that deliver measurable growth in conversion, retention, and operational efficiency.

## CORE SKILLS

- **Product strategy and delivery:** Product Vision & Roadmapping, OKRs, Agile / Kanban Methodologies, Feature Prioritization, Cross-Functional Team Leadership, Lifecycle Management
- **Platforms and User Experience:** Multi-Platform Strategy (iOS, Android, Web), Design Thinking, UI/UX Creative Direction, Conversion Rate Optimization (CRO), User Journey Redesign
- **Fintech and infrastructure:** Payment Gateways (Apple Pay, Google Pay, Multi-PSP Integrations), Risk & Fraud Prevention Systems, VoIP / Cloud SIP Infrastructure
- **Technical and analytics:** T-SQL, MAQL, Zendesk Administration, Jira Administration & Workflow Design, CMS Integration, ProductOps

## PROFESSIONAL EXPERIENCE

### Senior Product Manager – Core & Brand | Rebtel

*Stockholm, Sweden | Oct 2024 – March 2026*

- Direct the end-to-end multi-platform product strategy across iOS, Android, and Web, maintaining a cohesive global brand identity across all customer touchpoints.
- Spearhead frontend platform modernization and architecture revamps in close alignment with UX and creative leadership to maximize engagement and consistency.
- Led the redesign of the Mobile Top-Ups purchase funnel using a phased Design Thinking approach, achieving a 21% relative increase in New Paying Users (NPU's).
- Mentor Product Owners and cross-functional staff transitioning from Operations into

ProductOps, setting up structured prioritization frameworks for internal tools, payments, and risk management.

### **Product Manager – Core | Rebtel**

*Stockholm, Sweden | Mar 2023 – Oct 2024*

- Architected an independent multi-PSP payment infrastructure, allowing users to tokenize and reuse payment cards across diverse providers without re-entering details.
- Directed the technical integration of Apple Pay and Google Pay, substantially reducing payment friction across international customer segments.
- Managed risk and fraud mitigation roadmaps, building automated rules and controls to safeguard transaction integrity while protecting conversion rates.

### **Lead Product Manager | Rebtel**

*Stockholm, Sweden | Jan 2021 – Mar 2023*

- Formulated and executed company product vision, strategy, and roadmaps in direct partnership with executive leadership and cross-functional teams.
- Scaled International Mobile Top-Up products to users originating globally into 50+ receiving countries, overseeing end-to-end UI/UX across all platforms.
- Launched International Money Transfers between the United States and India, establishing end-to-end compliance, FX handling, and partner integrations.
- Served as Frontend Product Owner for web acquisition channels (5 languages) and native mobile apps (11+ languages).
- Acted as Jira Administrator and Agile Lead, structuring engineering Kanban boards, release cadences, and technical product specifications.

### **Product Manager – Website & Customer Experience | MAJORITY**

*Stockholm, Sweden | Sep 2019 – Dec 2020*

- Led a full mobile-first website relaunch featuring modern UX/UI animations, localized CMS infrastructure across multiple languages, and integrated recruitment tooling.
- Designed and deployed an internal web portal from scratch, streamlining workflows across Customer Support, Operations, and Risk teams.
- Configured and launched an omnichannel customer communications suite integrating phone, live chat, and email support.

### **Junior Product Manager | Rebtel**

*Stockholm, Sweden | Jan 2019 – Dec 2019*

- Headed the Calling Independence infrastructure project, managing VoIP specialists and developers to build and deploy Rebtel's cloud SIP routing engine.
- Migrated over 105 million VoIP call minutes per month onto the internal network, generating approximately \$85,000 in monthly recurring cost savings.

## PREVIOUS OPERATIONAL EXPERIENCE (REBTEL)

- **Customer Support Manager (Dec 2017 – Dec 2018):** Led a local support team of 4 and an offshore team of 25+ agents in the Philippines; managed reporting via T-SQL, raising CSAT from 70 to 80.
- **Operations Technical Agent (Nov 2016 – Dec 2017):** Handled system monitoring, 2nd/3rd line technical escalations, fraud pattern investigations, and database configurations.
- **Customer Support Trainer & Agent (Dec 2014 – Jan 2017):** Trained distributed support hubs in Bolivia and the Philippines; handled 100+ complex tier-1 technical support cases daily.

## ADDITIONAL EXPERIENCE

### **Professional Photographer (Freelance / Independent)**

*2008 – Present*

- Freelance visual artist and producer specializing in studio lighting design, aesthetic composition, and creative direction across commercial and portrait projects.

## EDUCATION

- **Advanced Technical Degree in Lighting, Image Capture, and Image Processing** – IES Imaxe e Son, A Coruña, Spain (2012 – 2014)
- **Advanced Technical Degree in Plastic Arts and Photography Design** – EASD Pablo Picasso, A Coruña, Spain (2010 – 2012) | *Graduated with Distinction (Final Grade: 9.25/10)*
